

## Stainless steel flush plate for dual-flush system

TECEsquare II stainless steel flush plates have now been supplemented with a new version featuring a matt black coated surface. The typical extra-flat TECEsquare design lends the plate a light and elegant look.

Suitable for TECE cisterns, for front or top actuation.

TECEsquare matt black

Dimensions in mm

## Product features

- High-quality flush plate made of stainless steel, with a matt black coated surface
- The special push-plate mechanism offers a particularly pleasant tactile quality
- Extra-flat design, projecting just 3 mm above the surface
- Includes integrated installation frame for fast assembly
- With anti-fingerprint coating for an unblemished appearance
