FLUSH PLATES

TECElux Mini – electronic flush plate made of glass

9240960
White

9240961
Black

You can find your way to the toilet quickly at night even without a light in the bathroom: thanks to the responsive button field on the TECElux Mini that lights up when you approach.

Flushing with the sensor

A casual hand movement in front of the sensor suffices and TECElux Mini actuates the flush touch-free. Anyone preferring the traditional approach can also actuate the flush by lightly tapping the button field.

TECE insert chute for cleaning tablets

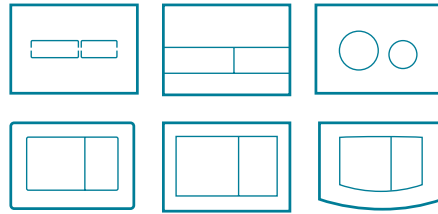

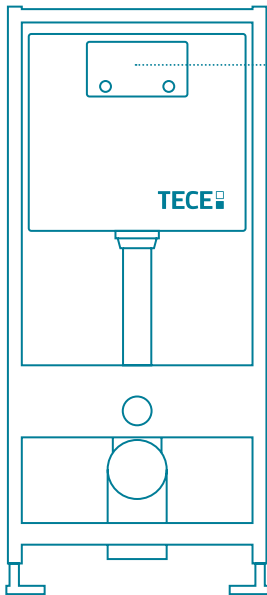

Provides cleanliness and freshness for your toilet: optional for all TECE Uni cisterns and flush plates.

9240950
Insert chute for cleaning tablets

*Surface with anti-fingerprint coating

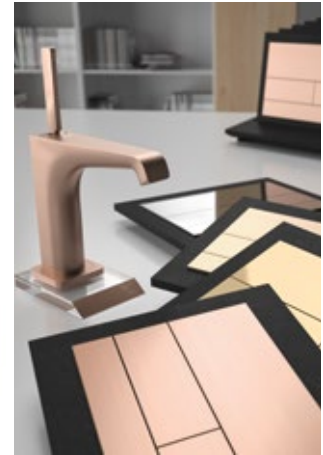

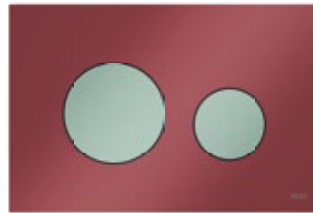

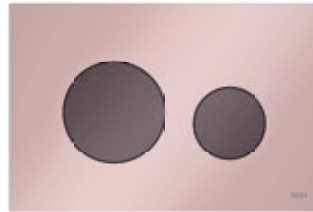

Each part fits together.

The manual TECE flush plates combine with all types of TECE cistern and are optionally equipped with an insert chute for cleaning tablets – for invisible toilet cleaning and hygienic operation.

Anyone with the choice...

...can choose individually available flush plates from TECE's broad range to suit their tastes and special requirements. All sanitary and ceramic colours as well as all RAL and NCS tones.

The electro-plated surfaces are scratch-resistant and durable.

2

- 1 Flush plates with individually coloured surfaces
 - Colours are coordinated with the bathroom furniture, tiles, sanitary ceramics and lots more
- 2 Flush plates with individual metallic surfaces
 - The colours combine well with a range of fittings and accessories
- 3 Flush plates with individually applied brand logo
 - For optimum presentation of your company logo
