ROBUST, LOW- MAINTENANCE, ELEGANT.

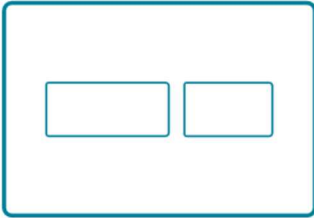

TECEsolid and TECEfilo-Solid:
Toilet and urinal flush plates for
public and semi-public areas

SOLID AND CHIC

TECESolid and TECEfilo-Solid are new flush plates for toilet and urinal with extremely robust design. Their flat construction is characterised by the harmoniously rounded edges and high-quality stainless steel finish. The attractive price makes these plates especially interesting for use in project business. But thanks to their optical qualities they also work wonderfully in private high-quality bathrooms.

TECEsolid flush plate for dual-flush system

Flush plate for TECE cisterns, for front and top actuation. Very flat stainless steel flush plate, buttons with rubber inlays on both sides, including actuation rods and mounting material. Flush plate screws on covertly.

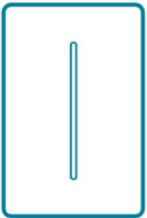

Dimensions (W x H x D): 220 x 150 x 6 mm

TECEsolid spacing frame

For combination with TECEsolid flush plate. For use as spacing frame for wall mountings that are too flat.

Dimensions (W x H x D): 220 x 150 x 4 mm

TECEfilo-Solid urinal electronics 230 V mains power

Fine assembly set for touch-free infrared flush device, suitable for TECE urinal flush valve housing U 2; usable from 0.5 bar minimum flow pressure; screws on covertly. Flush time, water-saving pause function, function for cover urinals, cleaning function, pre-flush and hygiene flush can be set.

Consisting of:

- Magnetic valve with dirt filter
- Extra-flat screw-down cover plate with sensor field
- Attachment hardware and programming key

Dimensions (W x H x D): 100 x 150 x 6 mm

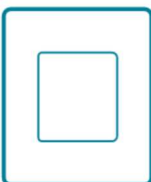

TECEfilo-Solid urinal electronics 7.2 V battery

Fine assembly set for touch-free infrared flush device, suitable for TECE urinal flush valve housing U 2; usable from 0.5 bar minimum flow pressure; screws on covertly. Flush time, water-saving pause function, function for cover urinals, cleaning function, pre-flush and hygiene flush can be set.

Consisting of:

- Magnetic valve with dirt filter
- Extra-flat screw-down cover plate with sensor field
- Attachment hardware and programming key

Dimensions (W x H x D): 100 x 150 x 6 mm

TECEsolid urinal flush plate including cartridge

Fine assembly set for TECE flush valve housing U 1; Flush valve categories 1.5 and 4 (DIN 12541); Adjustable flush volume 1, 2 or 4 litres; Usable from 0.5 bar minimum flow pressure; flush plate screws on covertly.

Consisting of:

- Flush valve cartridge
- Extremely flat metal flush plate, installation height 6 mm
- Actuation rod and mounting materials

Dimensions (W x H x D): 104 x 124 x 6 mm

“ The fittings used in public sanitary facilities need to be able to withstand a lot. The aesthetics shouldn't suffer, though.”

TECEsolid and TECEfilo-Solid for toilet and urinal

- Robust and durable – thanks to the 2 mm-thick stainless steel surface
- Very flat – just 6 mm from the wall
- In various surfaces, optionally available with anti-fingerprint coating
- Anti-theft protection – screws on covertly
- Manual and electronic urinal flush plates

TECEfilo-Solid electronic urinal flush plates with infrared sensor:

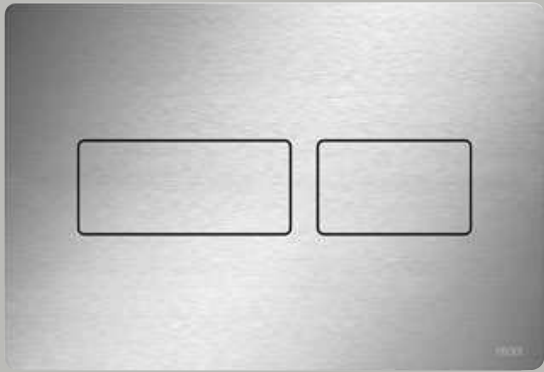

The flush time, flush volume, pre-flush and hygiene flush and the water-saving break function (lower flush volume during busy periods) can all be programmed. The product comes with a programming key.

Hygiene flush:

Automatically timed flush: 24, 72 or 168 hours after the last use.

Pause function/stadium function:

The flush volume is automatically reduced if the urinal is flushed at frequent intervals of less than two minutes.
