TECE flush plates

TECE flush plates

TECEsolid WC electronics with touchless actuation, 6 V battery Electronic flush plate with touch-free hygienic actuation for TECE standard cisterns (installation depth 13 cm) with front actuation and actuation height of approx. 1 m (centre of flush plate). Very flat stainless steel flush plate including fixing material, watertight battery compartment for installation in the cistern (with four batteries type Mono/D/LR 20) and actuation motor for single or dual flush. Compatible with insertion chute for cleaning tablets.

Dimensions (W x H x D): 220 x 150 x 6 mm

Function of the electronics:

The sensor detects when a person approaches the toilet and only illuminates the flush buttons then. The flush actuation is touch-free or by touching the button area. The TECEsolid WC electronics can be adapted to individual requirements using app programming.

Programmable functions (via Bluetooth interface and app):

- Single or water-saving dual flush
- Detection range of the sensor
- Interval hygiene flush
- Activation time
- Pre-flush
- automatic flush (safety flush)
- Display illumination brightness

Evaluation/logging function via app, interface to building management system and for remote release via cable-connected electric button on the safety arm support. Description:

TECEsolid Colour: Bright chrome

Order-No.: 9240461
