

NEW

THE LOWEST IN ITS CLASS!

The new TECEconstruct toilet module with
an installation height of only 750 mm.
Smallest dimensions - for maximum
design freedom.

**Ideal in
combination
with countertop
washstands.
Only 750 mm
high!**

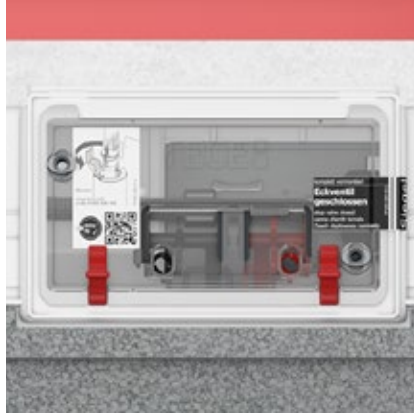

**Brings toilet and washstand
to the same level -
every time!**

Following the trend

Integrating the toilet and washstand in a single construction can be a challenge with modern countertop washstands. Standard toilet modules are too high. The new TECEconstruct toilet module with only 750 mm solves this problem: it saves centimetres at the cistern head - without compromising on functionality and comfort during installation.

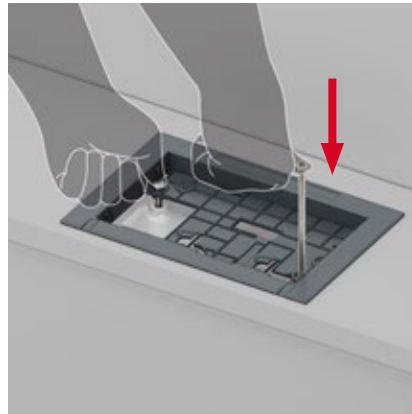

Low installation height, high performance

At a height of just 750 mm, the TECEconstruct toilet module offers everything a cistern should have. And clever details that make life easier for you.

Improved splash guard

The new, full-length dirt deflector is easy to handle. This is ensured by its ergonomic handle, the use of clamping latches instead of clamping screws, the insertion aid for actuation rods and the enlarged cable gland.

So easy, so flexible

The Uni 750-cistern in the new TECEconstruct toilet module is compatible with the pneumatic TECEflushpoint toilet actuation and with all mechanical TECE toilet flush plates controlled from the top. If required, the mechanical actuation can also be used in addition to a pneumatic actuation. Now even easier: thanks to easy fit quick assembly for flush plates, you can save around two thirds of working time!

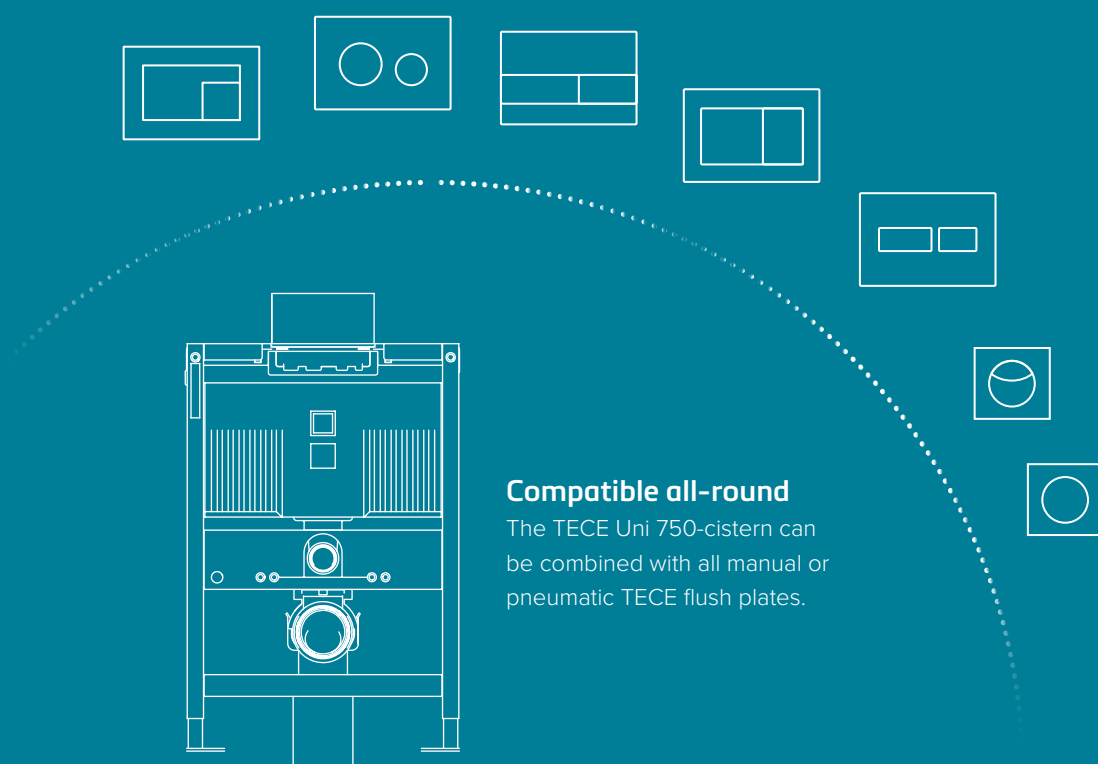

Product highlights

- Only 750 mm high
- Compatible with all manual TECE flush plates
- Can be used with mechanical or pneumatic actuation
- easy fit tool-free quick assembly for flush plates
- Improved splash guard
- Shorter A6 drain valve
- Sound-insulated condensation water protection

For every installation scenario

The TECE Uni 750-cistern is available in the TECEconstruct toilet module for dry-wall construction and as a TECEbox toilet module for installation in the masonry pre-wall.

	Description	Item no.
	TECEconstruct toilet module with Uni 750-cistern, installation height 750 mm	9300290
	TECEbox Uni 750-cistern, installation height 750 mm	9300293
	TECE drain valve A 6 for Uni 750-cistern	9820588
