

Each part fits together.

All TECE flush plates are compatible with the universal cistern from TECE. For renovations and modernisations, they can be interchanged regardless of series and year. Even after decades. Planning and design in a modular system. Made by TECE.

FLUSH PLATES

TECElux Mini – electronic flush plate made of glass

9240960
White

9240961
Black

You can find your way to the toilet quickly at night even without a light in the bathroom: thanks to the responsive button field on the TECElux Mini that lights up when you approach.

Flushing with the sensor

A casual hand movement in front of the sensor suffices and TECElux Mini actuates the flush touch-free. Anyone preferring the traditional approach can also actuate the flush by lightly tapping the button field.
