

TECEflushpoint Single Flush – Palm Push Pneumatic Control Plate

Description:

The TECEflushpoint single flush palm push pneumatic control has been designed to provide an easy to use, functional flush control. The palm push button for full flush is designed to sit 20mm proud of the bezel allowing ease of use, and gives the TECEflushpoint a distinctive and modern look. Produced using high quality materials, and attached to long hoses, the TECEflushpoint palm push actuation button can be positioned up to 1.7m away from the cistern making it suitable for users with reduced mobility. Supplied with all fittings and instructions. **E&OE**

Applications:

TECEflushpoint single flush palm push control plate is matched exclusively to the TECE range of concealed cisterns and frames suitable for WC's in en-suites, cloakrooms and other bathroom projects. The control push plate is fitted to cisterns that are suitable for:

- All common construction systems, in domestic, commercial, and institutional new build or refurbishment projects.
- Large or small bathrooms, where space is at a premium, while ease of cleaning and design is a priority.
- Premium design-led bathroom installations, where aesthetic considerations require sleek product solutions.
- The product range are surface mounted onto walls and take up minimal space.
- Designed and manufactured to allow for the remote flushing of cisterns and frames.

Product characteristics & key features:

- The TECEflushpoint single flush palm push bezel sits only 5mm proud of the wall finish.
- Actuation of the flush mechanism is controlled by a button that protrudes by 20mm, from the bezel.
- Access to cistern internals still achievable using maintenance cover (accessory required).
- Designed to suit all TECE produced standard depth WC cisterns and WC cistern frames and can be mounted up to 1.7m away from WC pan.
- Spring loaded button allows for smooth linear actuation.
- The TECEflushpoint single flush palm push control plate is also compatible with optional 'Insert chute' splash guard for use with cleaning tablets (accessory required).
- Can be used independently, or in addition to TECE flush plates if required.
