

TECEloop Flush Plate

Description:

The TECEloop flush control range is produced using high quality ABS materials, creating a premium product at an affordable price. Available in different colour ranges including polished, matte and metallic finishes giving the customer plenty of choice to suit their bathroom. Large and short flush buttons are easily identifiable due to the two different size buttons. The buttons also sit level with the rest of the control plate, offering a sleek design that only sits 5mm proud of the wall when installed. Designed to fit all TECE produced cisterns and frames, and compatible for front and top actuation, giving great design and installation flexibility. **E&OE**

Applications:

TECEloop control plates are matched exclusively to the TECE range of concealed cisterns and installation systems suitable for WC's in en-suites, cloakrooms and other bathroom projects. The control push plate is fitted to cisterns that are suitable for:

- All common construction systems, in domestic, commercial, and institutional new build or refurbishment projects.
- Large or small bathrooms, where space is at a premium, while ease of cleaning and design is a priority.
- Premium design-led bathroom installations, where aesthetic considerations require sleek product solutions.
- Can be surface mounted or rebated into wall finishes (accessories required).
- Can be mounted onto cistern for both top and front actuation, providing greater installation and design flexibility.

Product characteristics & key features:

- The TECEloop is only 5mm proud of wall finish, when surface mounted.
- Flush buttons are level with the rest of the flush plate surface providing a streamline flat design, that can be rebated into wall finishes. (additional components required)
- Designed to suit all TECE produced WC cisterns and WC cistern frames and can be mounted for front or top actuation.
- Spring loaded buttons with rubber buffers allow for smooth actuation, with a soft feel.
- The control plate also acts as a removable decorative maintenance cover to allow instant access to the inside of the cistern including the complete Control & Service Assembly.
- Wide range of different finishes gives great choice and suits a wide range of bathroom designs.
- The TECEloop control plate range is also compatible with optional 'insert chute' splash guard for use with cleaning tablets - accessory required.
- Supplied with quick adjust flush actuation rods, connection screws, installation guide and care and maintenance instructions.
