

TECEnow Flush Plate

Description:

The TECEnow flush control range is produced using high quality ABS materials, creating an attractive flush plate that is affordably priced. The dual flush plates are available in 11 different colour and finish options, including metallic, glossy, and matt, which give the customer plenty of choice. Large and short flush buttons are easily identifiable, and sit level with the rest of the control plate, offering a sleek design that only sits 5mm proud of the wall when installed. Designed to fit all TECE produced cisterns and frames, and compatible for front and top actuation, giving great design and installation flexibility. Can be rebated into the wall with additional components. **E&OE**

Applications:

TECEnow control plates are matched exclusively to the TECE range of concealed cisterns and installation systems suitable for WC's in en-suites, cloakrooms and other bathroom projects. The control flush plate is fitted to cisterns that are suitable for:

- All common construction systems, in domestic, commercial, and institutional new build or refurbishment projects.
- Large or small bathrooms, where space is at a premium, while ease of cleaning and design is a priority.
- Premium design-led bathroom installations, where aesthetic considerations require sleek product solutions.
- Can be surface mounted or rebated into wall finishes (accessories required).
- Can be mounted onto cistern for both top and front actuation (top actuation only available on select cisterns), providing greater installation and design flexibility.

Product characteristics & key features:

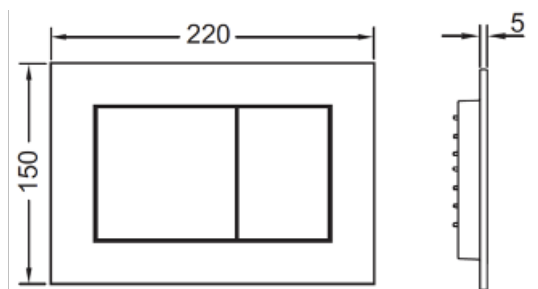

- The TECEnow is only 5mm proud of wall finish, when surface mounted.
- With flush buttons finishing parallel with the rest of the plate, the design offers a sleek, flat and modern design that can be rebated. (additional components required)
- Designed to suit all TECE produced WC cisterns and WC cistern frames and can be mounted for front or top actuation*.
- Rubber buffers mounted on the rear of the buttons, give a smooth actuation with a soft feel.
- The control plate also acts as a removable decorative maintenance cover to allow instant access to the inside of the cistern including the complete Control & Service Assembly.
- Wide range of different finishes gives great choice and suits a wide range of bathroom designs.
- The TECEnow control plate range is also compatible with optional accessory 'insert chute' splash guard for use with cleaning tablets.
- Supplied with quick adjust flush actuation rods, connection screws, installation guide and care and maintenance instructions.

**Dependant on Frame and Cistern*
