

TECEone Shower WC – Cold Feed

Article Number: 9700201

Description:

The TECEone wall hung shower WC pan has been specially developed to fit and function with all Tece frames and others produced by all major manufacturers. A rimless design, built to work with all frame sizes and with flush volumes of 4.5 or 6 litres making it the perfect product for the eco-conscious. No electrical supply is required. **E&OE**

Applications:

TECEone wall hung shower WC pans are designed to fit onto WC frames, fitted into en-suites, cloakrooms and other bathroom projects where wall hung shower WC pans are required. Suitable for:

- Small and large bathrooms, where space is at a premium, while ease of cleaning & sleek design is a priority.
- All major manufacturers WC frames with 180mm pan fixing centres.
- Installations where cold-water feeds are available, but not electric supply.
- Premium design-led bathroom installations, where aesthetic considerations require sleek product solutions.
- Can be fitted for comfort height installations providing the frame can be adjusted to suit required height.
- Can be used with 'grey' rainwater recycling systems when adequately filtered.

Product characteristics and key features:

- Increase or decrease water pressure on shower nozzle up to 5.6 lpm.
- Type AD backflow prevention device on shower function, protecting against Cat 5 contaminants.
- Self-cleaning shower nozzle that is also replaceable.
- Minimum feed pressure for shower function of 1.5 bar (max. 10 bar).
- Manufactured in accordance with EN997.
- Suitable for TECE WC frame cistern frame ranges.
- Hygienic ceramic design with fewer corners, edges, or joins.
- 4.5 and 6 litre flush volume compatible.
- Braided stainless-steel cold-water feed pipe.
- Integral concealed pan hanging locations.
- Hard Mounted seat locations to suit TECE seat and lid (seats sold separately – see pricelist).

TECE Ltd. data sheet

Status as of 16/06/2025
