

TECEsolid Electronic (12v Mains) Flush Plate

Description:

The TECEsolid Electronic flush control range is a hands-free flush plate which features a sleek modern look. The stainless steel faced control plate offers a 'flat' design, with hands free actuation allowing the user to flush the WC without the need of touch. With programmable features, the operation of the TECEsolid Electronic control plates can be customised to suit the user's requirements, and is programmable via an app. When installed, the control plate sits just 6mm proud of the wall, offering a sleek design. Designed to fit all TECE produced cisterns and frames, and compatible for front and top actuation, giving great design and installation flexibility **E&OE**

Applications:

TECEsolid Electronic control plates are matched exclusively to the TECE range of concealed cisterns and installations systems suitable for WC's in en-suites, cloakrooms and other bathroom projects. The electronic control plate is fitted to cisterns that are suitable for:

- All common construction systems, in domestic, commercial, and institutional new build or refurbishment projects.
- Large or small bathrooms, where space is at a premium, while ease of cleaning and design is a priority.
- Premium design-led bathroom installations, where aesthetic considerations require sleek product solutions.
- Can be surface mounted or rebated into wall finishes due to décor panel and control buttons sitting flush with each other.
- Can be mounted onto cistern for both front and top actuation (Some features lost when mounted for top actuation), providing greater installation and design flexibility.
- Touch free actuation, making this the perfect product for the hygiene conscious.

Product characteristics & key features:

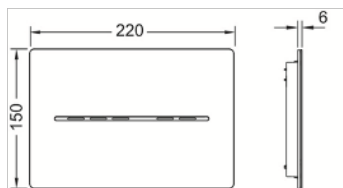

- The TECEsolid Electronic sits 6mm proud of the wall finish, when surface mounted.
- Touch Free control plate provides a streamline design, that can be rebated into wall finishes. (Additional components required – various options. See price list)
- Designed to suit all TECE produced WC cisterns and WC cistern frames, and while best suited for front actuation, can also be mounted for top actuation*. (Some features will not work with top actuation)
- Various programmable functions through App, including single and dual flush. (See programming instructions)
- Easily installed onto UK power mains using TECEsolid Electronic Transformer and Cable. (key component required – see next page)
- Rounded corners of plate reduce sharp edges.
- Compatible with Anti-theft device – accessory required
- Compatible with optional 'Insert chute' splash guard for use with cleaning tablets - accessory required.

**Dependant on Frame and Cistern.*
