

## TECEsolid Flush Plate

---

### Description:

The TECEsolid flush control plate is made from premium materials at an affordable price. Featuring a flat stainless-steel design, two rounded rectangular buttons for full and partial flush, fitted with rubber buffers for quieter operation. Available in 10 finishes, offering design flexibility for the customer. Made from durable ABS and stainless steel, the plate is compatible with all TECE cisterns and frames, and includes fittings and instructions **E&OE**

### Applications:

TECEsolid control plates are matched exclusively to the TECE range of concealed cisterns and installation systems suitable for WC's in en-suites, cloakrooms and other bathroom projects. The control push plate is fitted to cisterns that are suitable for:

- All common construction systems, in domestic, commercial, and institutional new build or refurbishment projects.
- Large or small bathrooms, where space is at a premium, while ease of cleaning and design is a priority.
- Premium design-led bathroom installations, where aesthetic considerations require sleek product solutions.
- Can be mounted onto cistern for both top and front actuation, providing greater installation and design flexibility

### Product characteristics & key features:

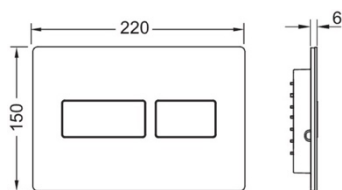

- The TECEsolid is only 6mm proud of wall finish, when installed.
- Flush buttons sit parallel with the rest of the plate surface providing a streamline design.
- Designed to suit all TECE produced WC cisterns and WC cistern frames and can be mounted for front or top actuation\*.
- Spring loaded buttons with rubber buffers allow for smooth actuation, with a soft feel.
- The control plate also acts as a removable decorative maintenance cover to allow instant access to the inside of the cistern including the complete Control & Service Assembly.
- Supplied with quick adjust flush actuation rods, connection screws, installation guide and care and maintenance instructions.
- Rounded corners on plate and buttons reduce sharp edges found on other designs.
- Can be fitted with anti-theft screws – accessory required
- The TECEsolid control plate range is also compatible with optional 'Insert chute' splash guard for use with cleaning tablets - accessory required.

*\*Dependant on frame and cistern*
