

TECEsquare Satin Glass Flush Plate

Description:

The TECEsquare Satin Glass flush control plates are a high quality premium product range, manufactured using Glass for both the Décor panels and the Buttons. The flush control plates are available in a range of colours, and designed to produce a smooth flat control plate that's easy to clean. The flush control plates are compatible with all TECE produced cisterns and frames, and can be mounted for both front and top actuation. When installed, the flush plate sits 11mm proud of the finished wall surface, but can also be rebated into the wall so that the face of the flush plate finishes parallel with the wall finish. **E&OE**

Applications:

TECEsquare Satin Glass control plate range is matched exclusively to the TECE range of concealed cisterns and installation systems suitable for WC's in en-suites, cloakrooms and other bathroom projects. The control plate is fitted to cisterns that are suitable for:

- All common construction systems, in domestic, commercial, and institutional new build or refurbishment projects.
- Large or small bathrooms, where space is at a premium, while ease of cleaning and design is a priority.
- Premium design-led bathroom installations, where aesthetic considerations require sleek product solutions.
- Surface mounted and rebated for flush installation. (accessory required for rebating)
- Can be mounted onto cistern for both front and top, providing greater installation and design flexibility.

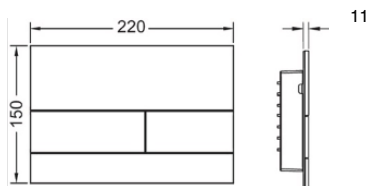

Product characteristics & key features:

- The TECEsquare Satin Glass plate sits 11mm proud of wall finish when installed but can also be rebated to finish parallel with the wall finish – Accessories required.
- Glass buttons are level with the rest of the flush plate surface providing a streamline flat design, that is easy to clean.
- Designed to suit all TECE produced WC cisterns and WC cistern frames and can be mounted for front or top actuation.
- Spring loaded buttons with rubber buffers allow for smooth and quiet actuation, with a soft feel.
- The control plate also acts as a removable decorative maintenance cover to allow instant access to the inside of the cistern including the complete Control & Service Assembly.
- All colour options are satin finish, and colours are reverse fitted onto the glass which prevents degradation.
- The TECEsquare Satined Glass control plate range is also compatible with optional 'Insert chute' splash guard for use with cleaning tablets (accessory required).
- Supplied with quick adjust flush actuation rods, connection screws, installation guide and care and maintenance instructions.
