## TECEvelvet Flush Plate

### Description:

The TECEvelvet flush control range is produced using specialist Fenix NTM (Nano-Tech Material) surfaces produced by Arpa Industriale, offering a Matt soft touch and anti-fingerprint finish. The two differently sized buttons for full and partial flush sit level with the rest of the plate. When installed, the plate sits just 5mm proud of the wall giving TECEvelvet a sleek, modern look. Produced using high-quality materials, TECEvelvet flush control plates will fit all TECE produced cisterns and frames, and compatible for front and top actuation, giving great design and installation flexibility. **E&OE**

### Applications:

TECEvelvet control plates are matched exclusively to the TECE range of concealed cisterns and installation systems suitable for WC's in en-suites, cloakrooms and other bathroom projects. The control push plate is fitted to cisterns that are suitable for:

- All common construction systems, in domestic, commercial, and institutional new build or refurbishment projects.
- Large or small bathrooms, where space is at a premium, while ease of cleaning and design is a priority.
- Premium design-led bathroom installations, where aesthetic considerations require sleek product solutions.
- Surface mounted or rebated installation into wall finishes.
- Surface mounting onto cistern for both top and front actuation, providing greater installation and design flexibility.

### Product characteristics & key features:

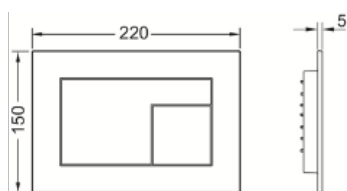

- The TECEvelvet is only 5mm proud of wall finish, when surface mounted.
- Flush buttons are level with the rest of the flush plate surface providing a streamline flat design, that can be rebated into wall finishes. (additional components required)
- Designed to suit all TECE produced WC cisterns and WC cistern frames and can be mounted for front or top actuation\*.
- Spring loaded buttons with rubber buffers allow for smooth actuation, with a soft feel.
- The control plate also acts as a removable decorative maintenance cover to allow instant access to the inside of the cistern including the complete Control & Service Assembly.
- The Matt finishes provide great timeless colour options with minimal light reflectivity
- The TECEvelvet control plate range is also compatible with optional 'Insert chute' splash guard for use with cleaning tablets (accessory required).
- Supplied with quick adjust flush actuation rods, connection screws, installation guide and care and maintenance instructions.
- Small scratches can be repaired using heat – Please contact us for official instruction on how to do this successfully
