

# NARROW DIMENSIONS FOR A WIDE RANGE OF APPLICATIONS

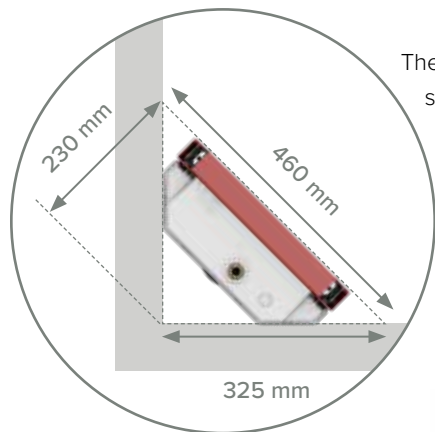

The new TECEprofil toilet module  
with a width of just 320 mm.

**NEW**

# Compact dimensions for tricky installation situations

In very small or angled bathrooms and narrow shafts, every centimetre counts for the toilet module. With the TECEprofil toilet module with Compact 320 cistern, bathroom planners and fitters will find a particularly narrow toilet module which allows compact installation situations and corner installations to be solved in a space-saving manner - without compromising on function or comfort.

The toilet module requires surprisingly little space thanks to the slanted cistern in the corner installation.

## Ahead of the game

The pleasantly quiet F10 filling valve is already pre-assembled in the TECEprofil toilet module with Compact 320 cistern. With the newly developed 3-way corner valve, the connecting pipe can be flushed in assembled condition during commissioning, thereby ensuring faster and even safer assembly.

Initial flushing

Operation

## Installation made easy

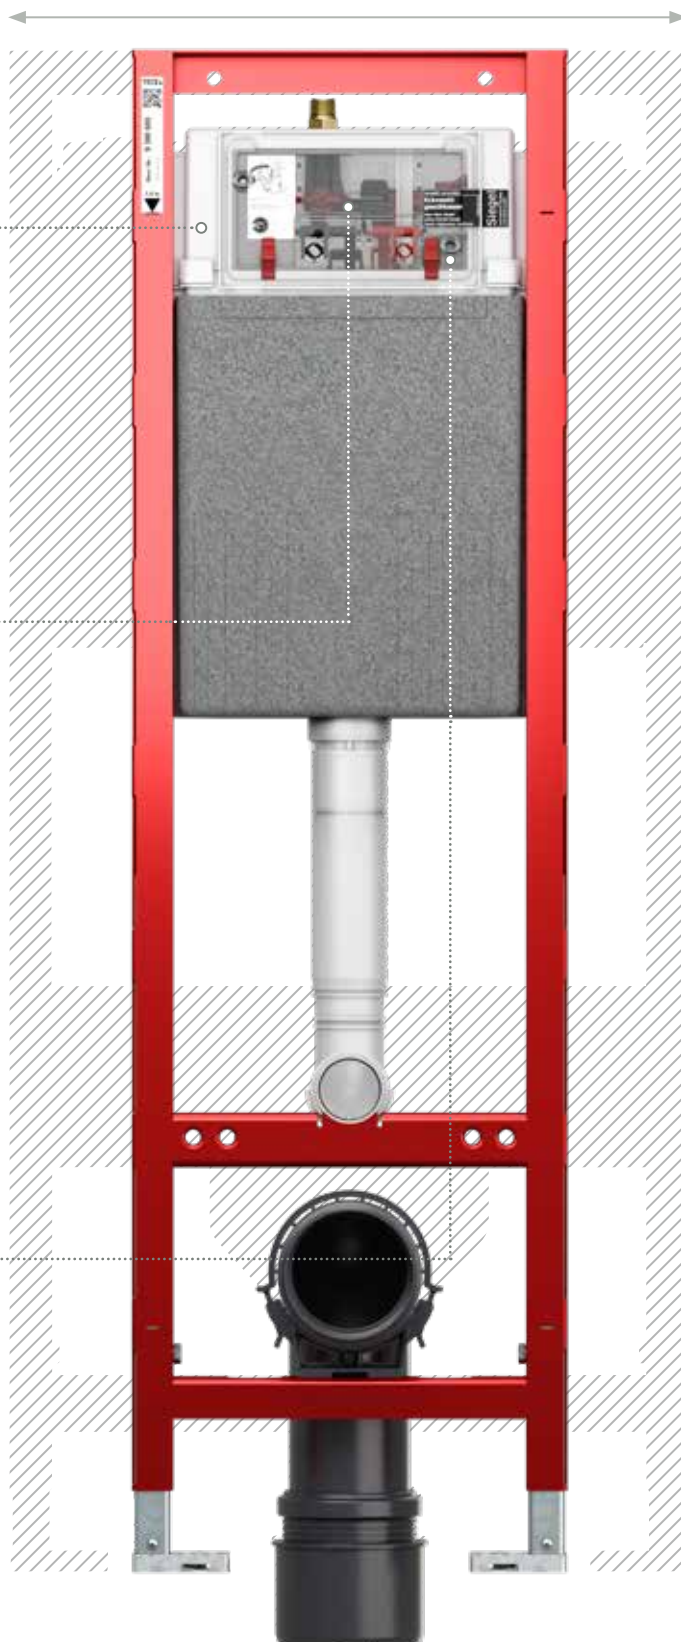

Thanks to easy fit quick assembly for flush plates, you save 60% of working time.

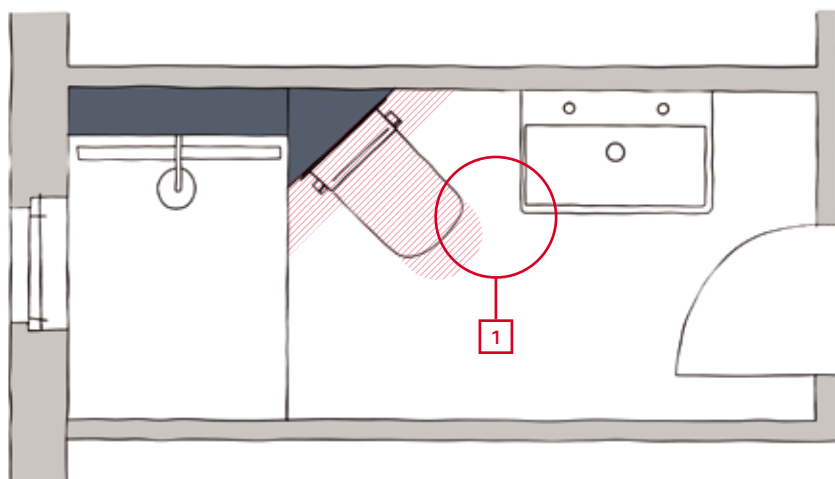

**NEW: 320 mm total width**

500 mm

## More freedom in a small space

Thanks to its narrow width and slanted tank corners, the TECEprofil toilet module with Compact 320 cistern can be installed without sacrificing space, providing more freedom for bathroom design.

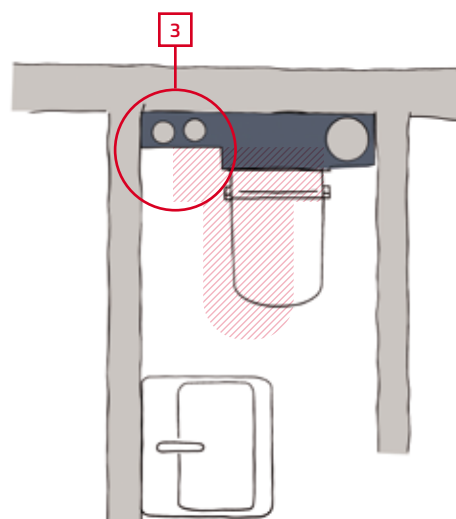

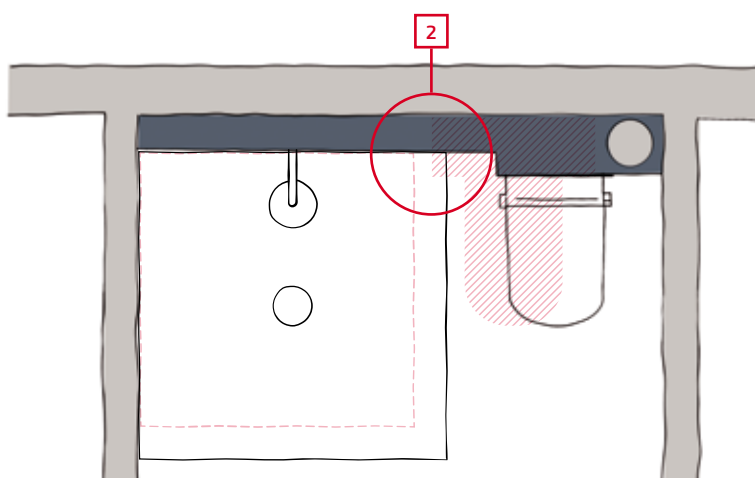

**1** Less projection ensures a greater distance between the toilet and the washbasin.

**2** Thanks to the 18 cm narrower shaft, a 90 cm shower tray can be fitted here instead of an 80 cm one.

**3** With its narrow width, the toilet module can be placed between the downpipes and risers instead of in front of them.

In comparison: Standard toilet modules with 500mm width.

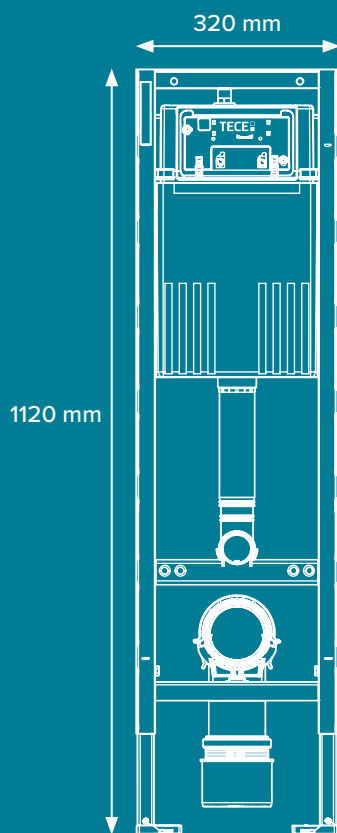

## Product highlights

- 320 mm narrow, with slanted tank corners and optimised for corner installation
- Compatible with all TECE flush plates
- Cistern connection compatible with quick adapters
- easy fit tool-free quick assembly for flush plates
- Installation tunnel with “zip” function: Shorten without tools
- Compatible with the TECEprofil pre-wall system
- 7 l tank volume - for direct flushing without having to wait
- 50% more modules on one pallet

## The range

	Description	Item no.
	TECEprofil toilet module with Compact 320 cistern, installation height 1120 mm	9300600

	Description	Item no.
	TECEprofil 320 module fastener for wall corner assembly	9380015
	TECEone Upgrade set 320 dry-wall construction	9880079

### Universally compatible

The TECEprofil toilet module with Compact 320 cistern can be combined with all manual, pneumatic or electronic TECE flush plates.
