# CONSISTENTLY BETTER — FLUSHING TECHNOLOGY UPGRADE 2021

The universal cistern for  
TECEprofil and TECEbox.

**NEW**

# KEEPING EVERYTHING SIMPLE: THE INSTALLATION UPGRADE FOR THE UNI CISTERN

With all its usual outstanding features, the tried-and-tested all-rounder now works even better during installation – thanks to clever upgrades that make installation easy. No ifs or buts.

## Quickly connected – without sealing

The cistern's new water connection has a 1/2" external thread and is compatible with quick adapters. Time-consuming sealing? Not any more.

## Upgrade

- easy fit tool-free quick assembly for flush plates
- Quick adapter for water connection: no sealing, no errors

## Reliably proven

- Can be combined with all TECE flush plates
- Sealed tank doesn't have to be opened in shell construction
- 10-litre safety tank – for direct additional flushing (without waiting)
- Universal cistern for all applications and toilet ceramics
- Tested in accordance with DIN EN 14055

Discover the new TECE Uni cistern: in our new function video at [www.tece.com](http://www.tece.com) or on the TECE YouTube channel.

# "All the plates fit. Every time!"

## Another improvement

Installing the flush plate is now even easier: thanks to easy fit for quick installation. Each TECE flush plate can be installed in next to no time without measuring or setting. As before: all TECE flush plates are compatible with the universal cistern from TECE – at any time and for any installation. We guarantee the combination of “new” and “old” components without easy fit.

Up to 2020

From 2021

Installation with and without: that's how it's done! Find out more in our Tips&Tricks videos at [www.tece.com](http://www.tece.com) or on the TECE YouTube channel.

From 2021

Up to 2020
