FOR STRIKING DESIGNS WITH ATTENTION TO DETAIL

Perfect your design concept with toilet flush plates in your preferred colours. This is how your vision becomes reality – precisely and perfectly coordinated down to the last detail.

Customised aesthetics

Whether in green to match the retro toilet ceramics, in Bali brown to show your corporate design, or in brushed nickel to mirror the vintage fitting, customised surfaces create an aesthetic that not only catches the eye but also blends seamlessly into the overall space.

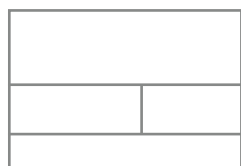

Precisely staged

When perfectly tailored to the materials, lighting and interior design, even an everyday item such as a toilet flush plate becomes part of the overall staging.

SURFACES AS INDIVIDUAL AS YOUR PROJECT

Curated for your project: From the diversity of the RAL range, through classic standard, retro or ceramic colours, to the subtle brilliance of galvanic surfaces. We create solutions that make exclusivity truly tangible.

Design without compromise

For orders of 25 units or more, you can have your chosen paint finish applied to the metal or plastic panels of the TECESquare, TECEsolid, TECEloop, TECEnow and TECEflushpoint flush plate series. Both materials are available with either galvanic surfaces or paint finishes. That way, you can enjoy maximum design freedom.

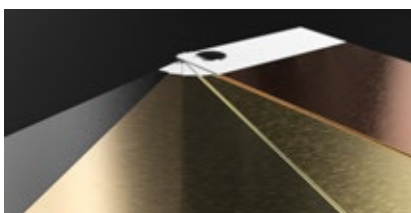

RAL Classic colours

For absolute colour fidelity

RAL Classic offers a selected range of proven industrial shades - precisely defined, reliably reproducible and ideal for giving projects a clear, professional colour identity.

Galvanic surfaces

For consistent designs

Galvanic surfaces offer flush plates a high-quality metal finish that can be precisely colour-matched to your fittings – for harmonious, long-lasting aesthetics that enhance every detail.

Standard, retro and ceramic colours

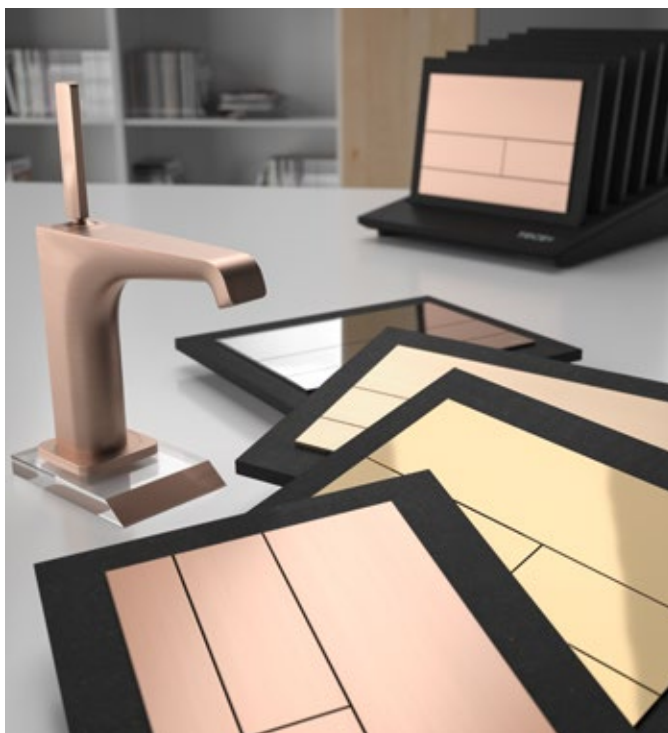

For classic elegance

Standard, retro and ceramic colours enable precise matching to sanitary ceramics and the world of vintage colours - for a harmonious overall look that showcases classic shades just as effortlessly as modern nuances.
