

TECEprofil design Shower Pan Connection Sets (Suits Type AG Fill Valves)

Description:

Manufactured to suit the TECEdesign WC Frame range (that come with a Type AG fill valve), these Shower Pan Connection Sets allow for the connection of a water supply to a washlet or smart toilet pan, within the cistern. Manufactured to conform to UK Building Regulations, and supplied as a complete set, the shower pan connection set comes with everything required to ensure a quick and easy installation and are compatible with most washlet pans produced by major manufacturers. E&OE

Applications:

Produced in 3 sizes, each set is matched to a particular sized frame, and allows for integral installation of water supplies to washlet or smart toilet ceramics and is compatible with the Type AG fill valves for;

- Connection to Washlet and Smart toilets produced by all major manufacturers, to supply water from inside the cistern allowing isolation of water supply using the shutoff valve inside the tank.
- Reduction of installation time as no additional plumbing required for a separate water feed to pan.
- Tidy installation as supply hoses fit within a designated water connection conduit.

Materials:

TECEprofil design shower pan connection sets (Type AG) are produced with the following high quality and UK compliant materials

- T-Hose - EPDM Core / Stainless Steel Braided Sleeve
- Feed Hose - EPDM Core / Stainless Steel Braided Sleeve
- Connections - Brass
