» I don't want to limit myself in my design choices. Even in public and semi-public spaces, where solutions need to be durable.«

TOUGH AND STRONG FINISH

TECEsolid is not only one of the most robust toilet flush plates from TECE, with its fine, structured surfaces it also belongs in the top design league from a visual perspective. Form and function thought through to the end – from public and semi-public rooms to sophisticated private bathrooms.

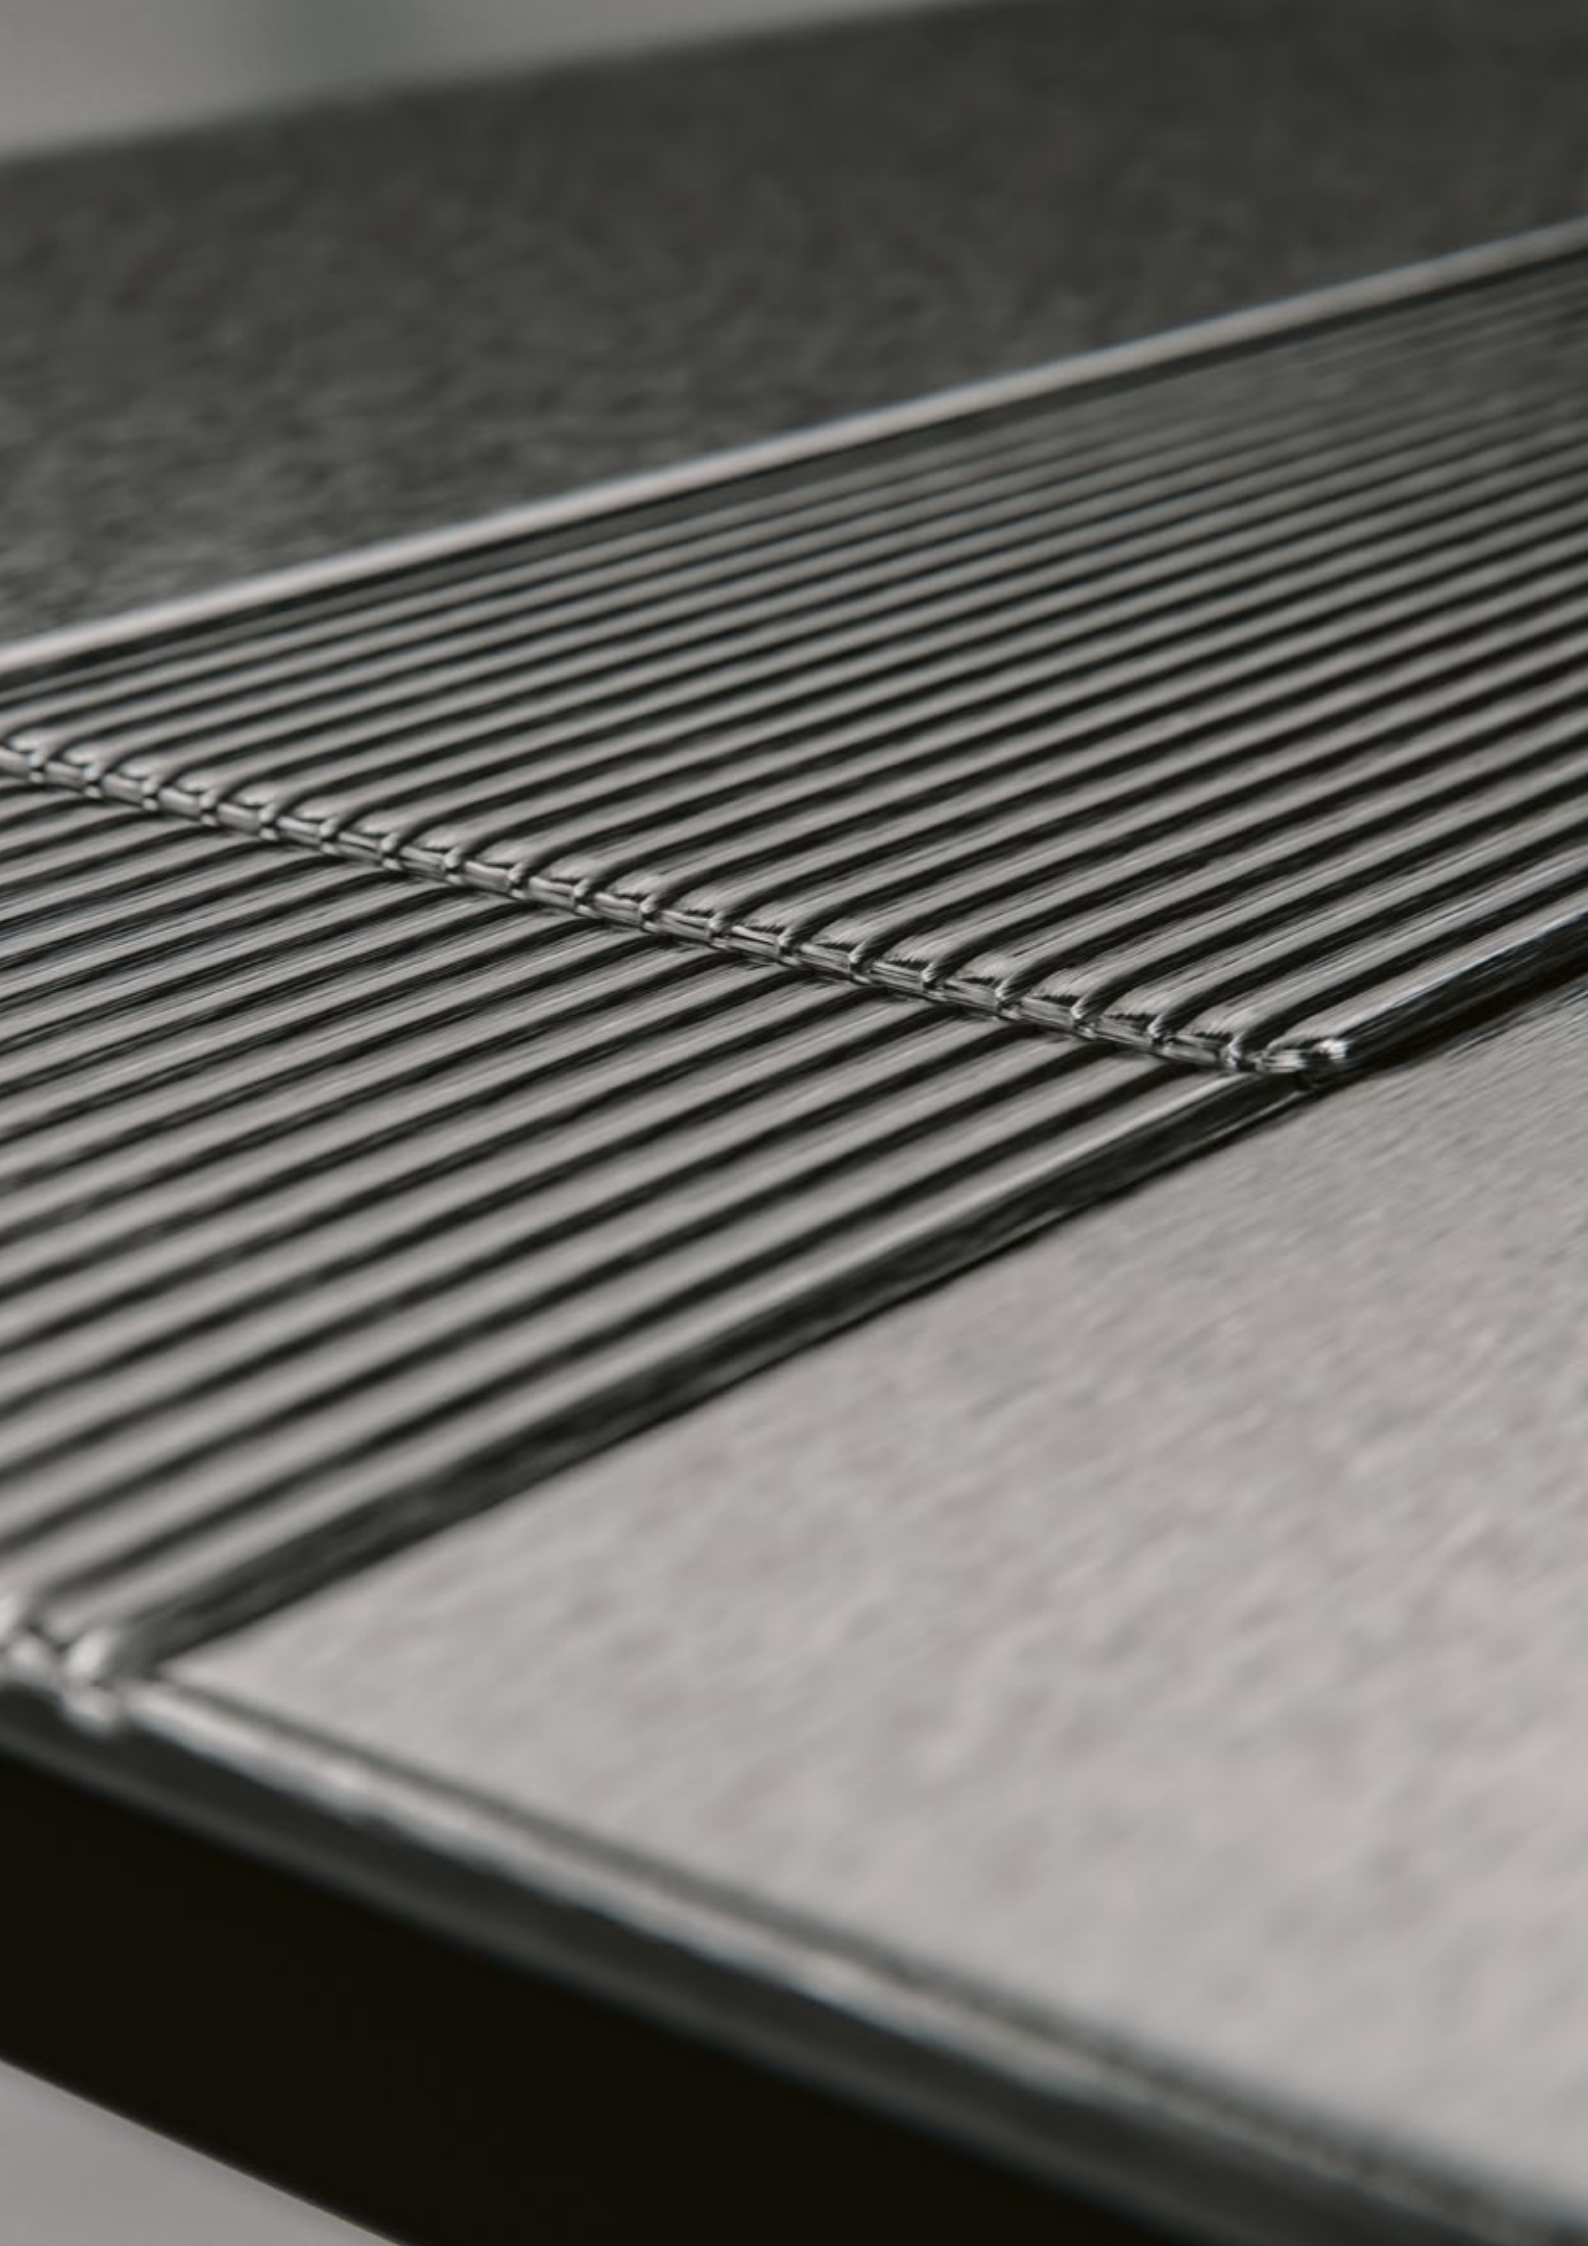

BRUSHED GRAPHITE WITH LINE STRUCTURE

Sophisticated all along the line. With its new relief surface, TECEsolid brings even more structure to bathroom design. A visual and tactile experience.

BRUSHED NICKEL WITH LINE STRUCTURE

Strong character for every environment: TECEsolid in warm-soft nickel and with line structure. As a discreet counterpoint or elegant add-on.

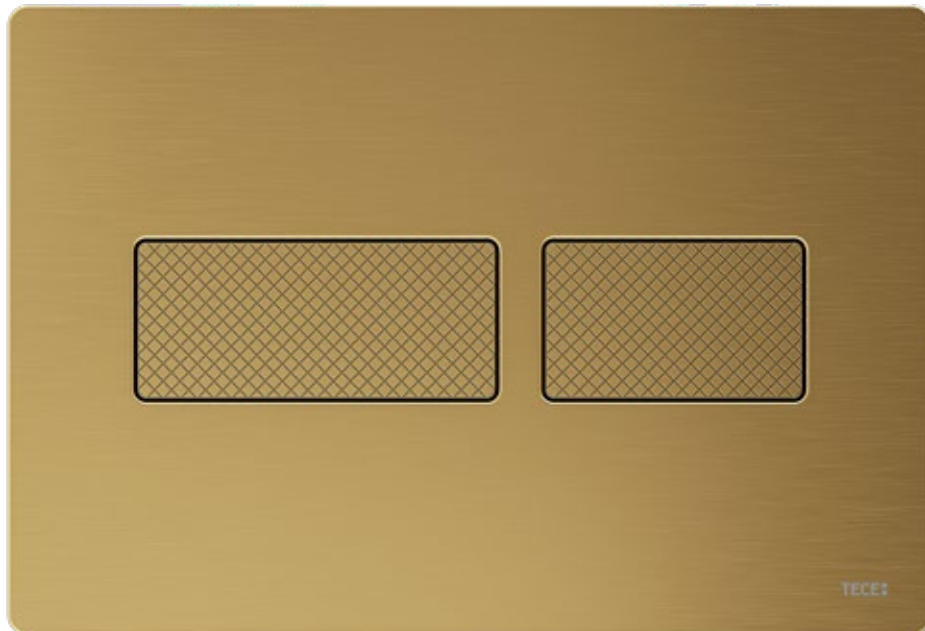

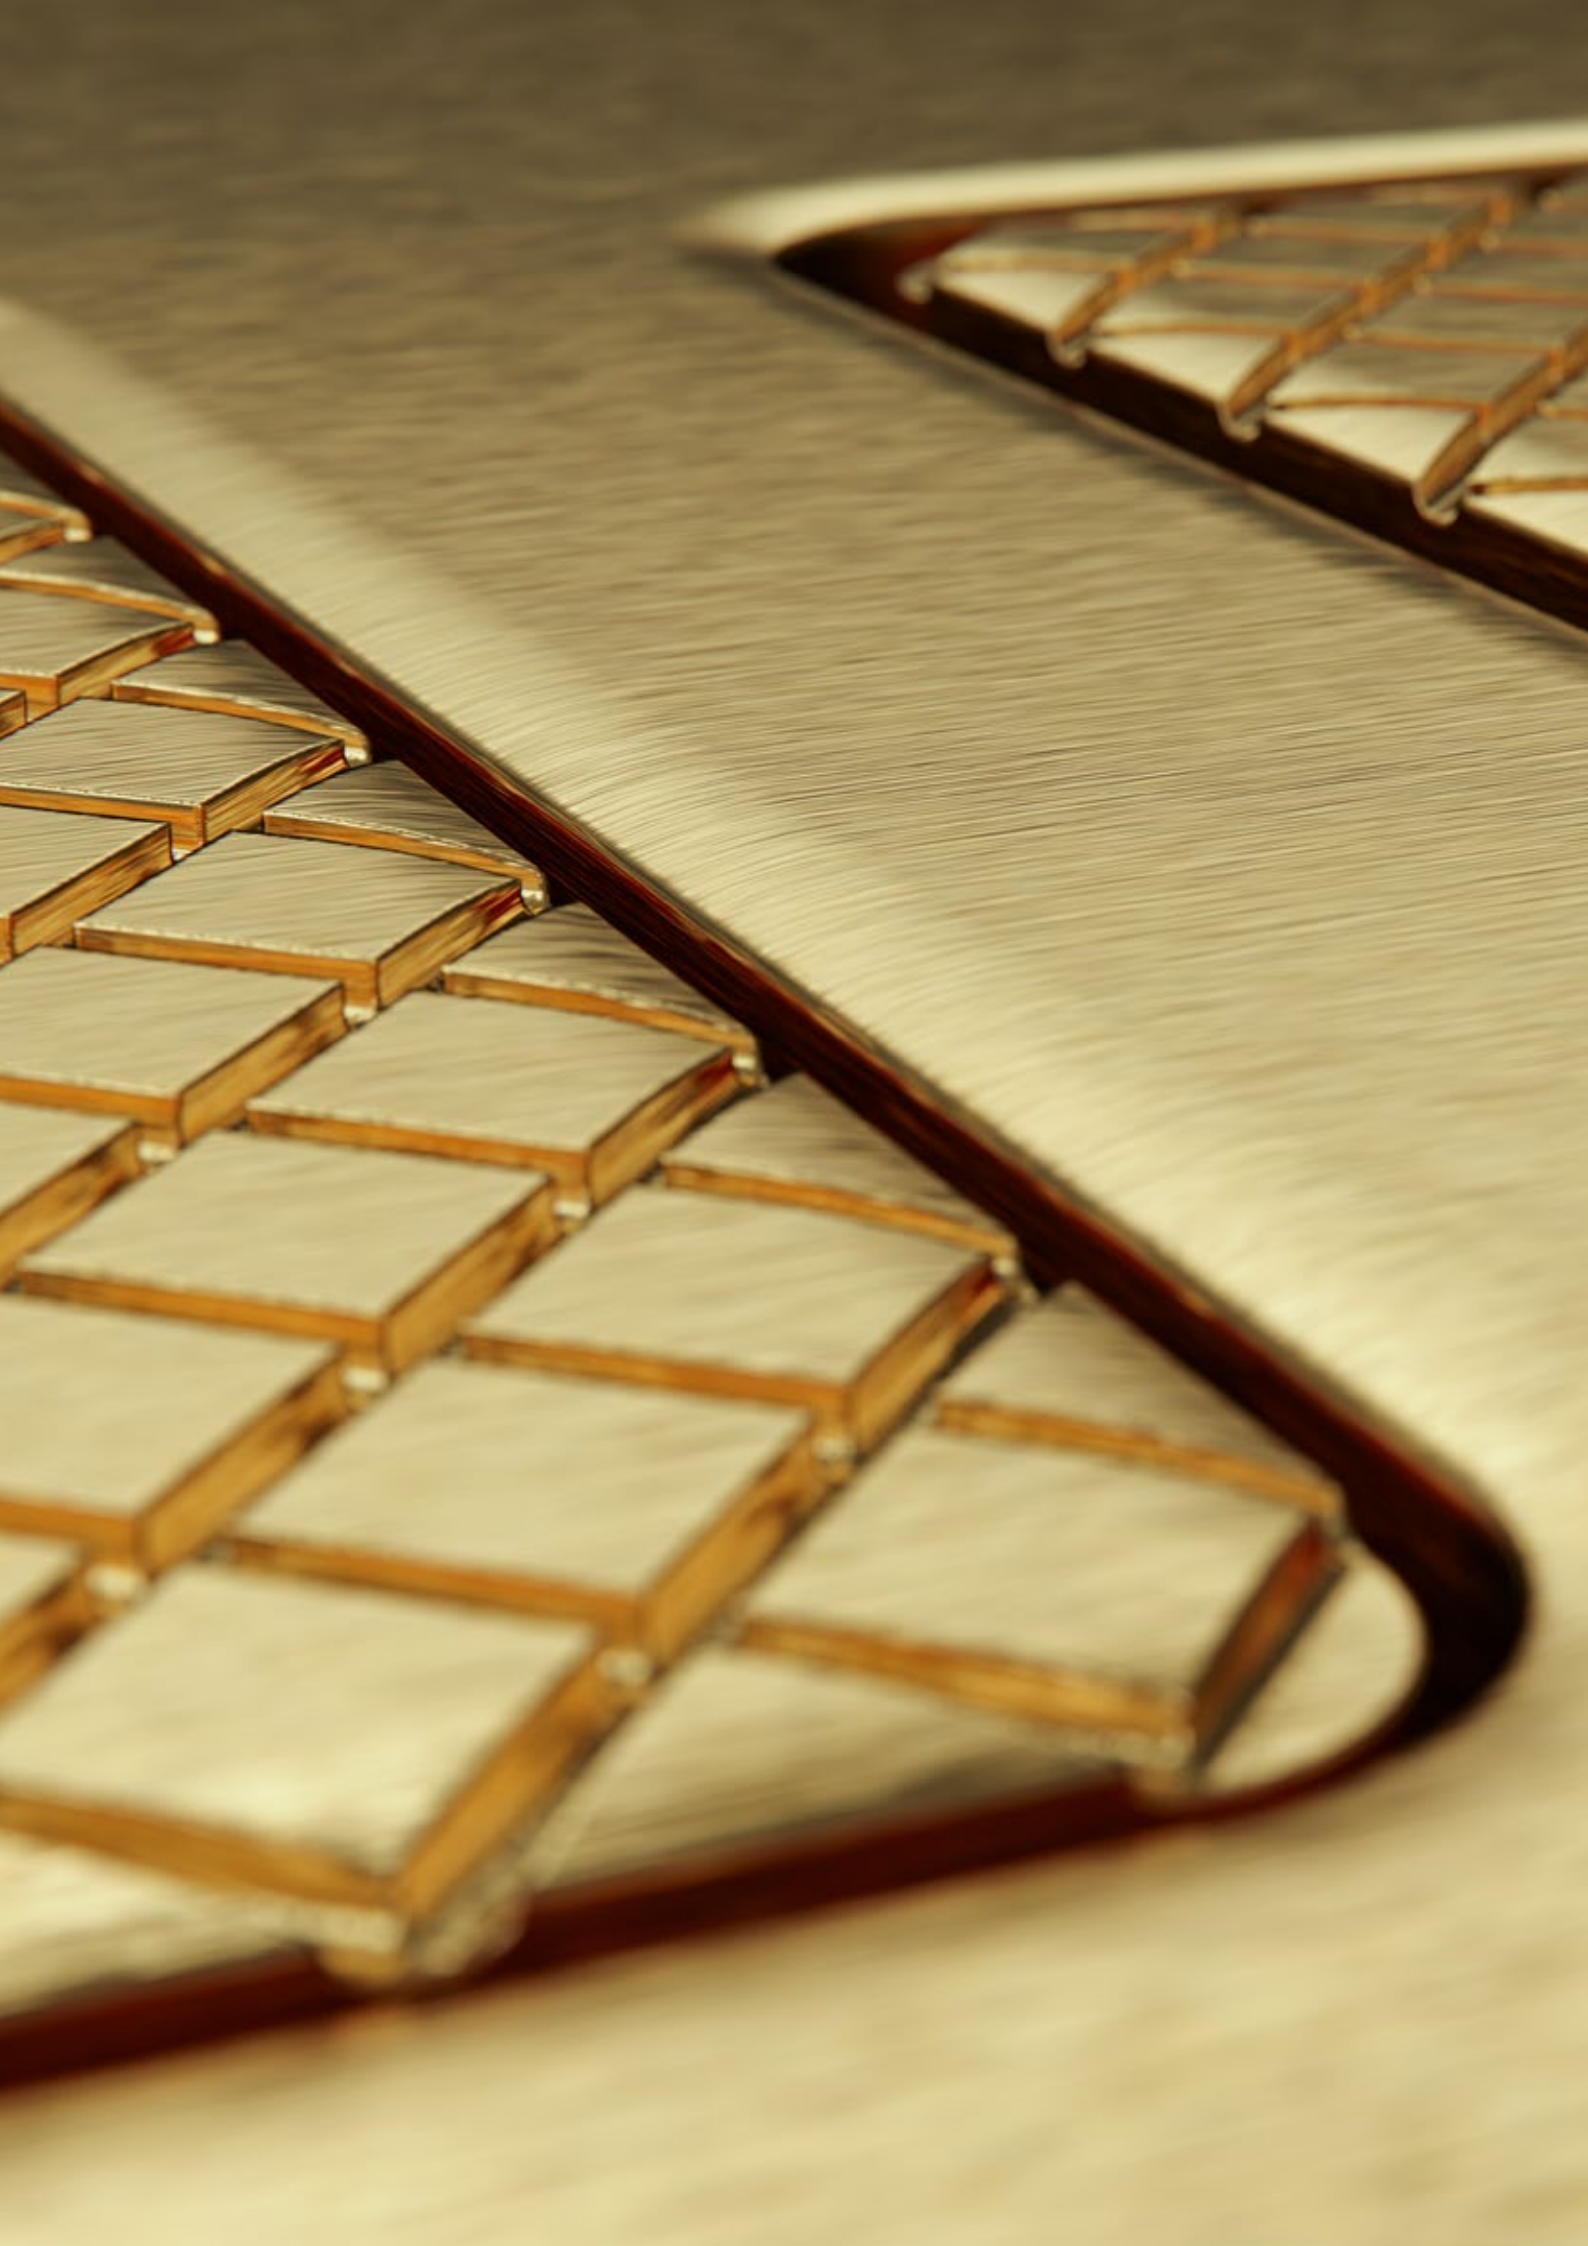

BRUSHED BRASS WITH DIAMOND STRUCTURE

New facets for every bathroom. TECEsolid in the brushed brass surface with symmetrical diamond structure on both flush buttons – made to touch!

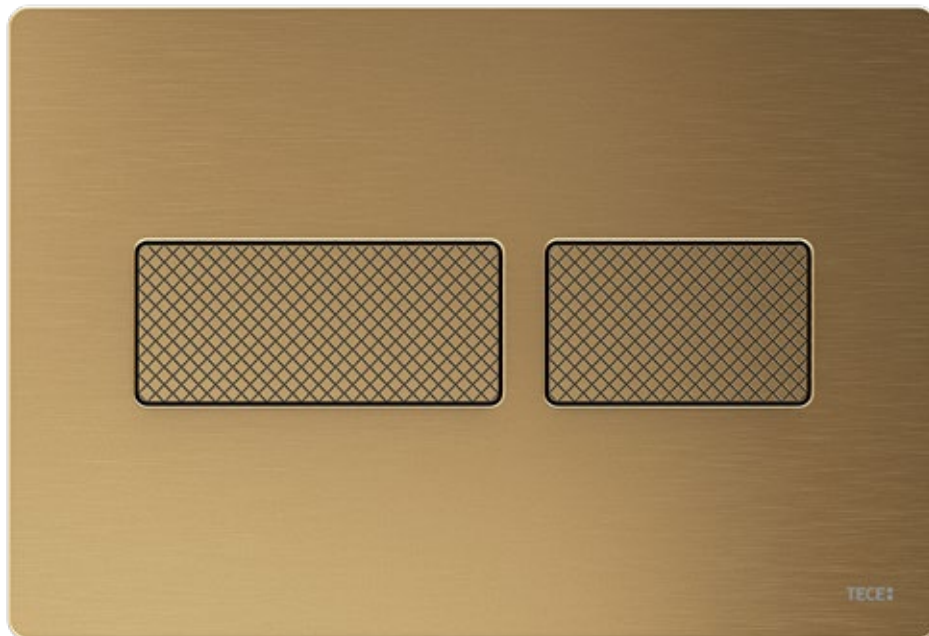

BRUSHED BRONZE WITH DIAMOND STRUCTURE

Brushed bronze with fine grid lines. TECEsolid makes a strong statement even in semi-public spaces.

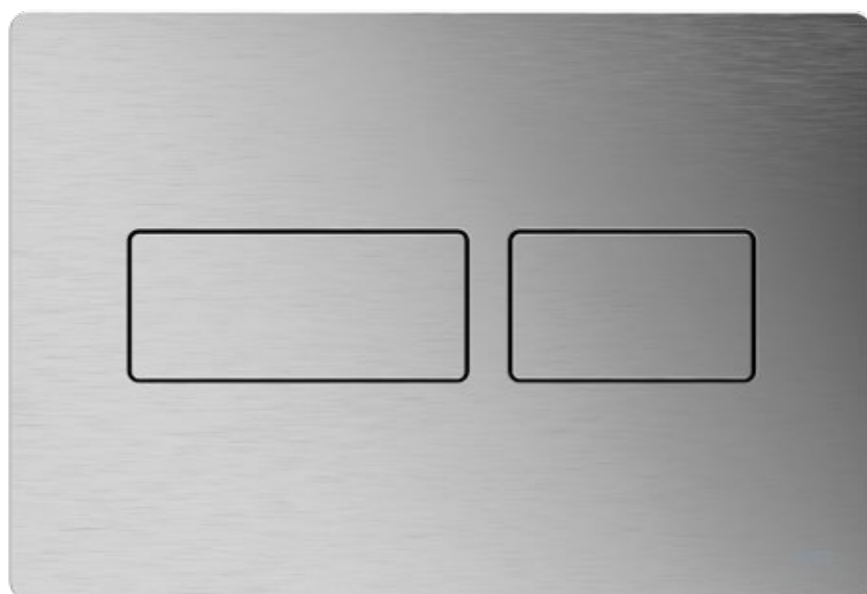

TECEsolid

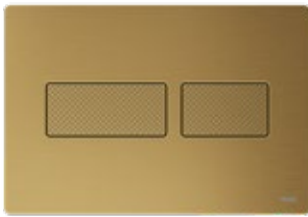

BRUSHED STAINLESS STEEL

The classic among the strong! Like all TECEsolid flush plates, the TECEsolid features a robust 2 mm stainless steel construction within its slim 6 mm flat profile and can be screwed on at the back.

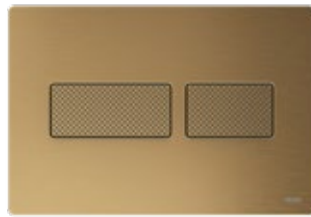

TECEsolid RANGE

From hard to soft: The TECEsolid toilet flush plate collection. Classically smooth or with a refined surface structure – each one is easy to clean, vandal-proof and simply indestructibly beautiful.

7.2 V battery
9242037
230 V mains supply

The robust stainless steel flush plate not only ensures hygiene during use thanks to its touch-free actuation, but also prevents hygiene hazards when not in use thanks to programmable functions. Flush volumes and intervals are programmed via the free app and thereby ensure hygienic water exchange in cold water systems.
